

**PHILC3912 Seminar: Ethics (Emotions and Value) M. Bell S/12**

This seminar will focus on the connections between emotions and value. What are emotions? What does it mean for an emotion to be justified or unjustified? Under what conditions, if any, are our emotions rational? Are we responsible for our emotions? What role should emotions have in our moral lives? What role do emotions play in aesthetic appreciation? We will address these and related questions through readings drawn from contemporary and historical sources.
